

## **Year 4**

### **Land Sea and Sky**

#### **The Big Idea**

Plants and animals can adapt to living almost anywhere on our Earth. Wherever we look on the land, in the sea and in the sky, we find living things that have evolved in unique ways just to live there.

In Science, we'll be finding out:

- How water plants are different from other plants
- How fish have adapted to living in water
- How birds are adapted to flying
- How to create a classification key to group animals
- About food chains in different world habitats
- About the life cycles of plants and animals

In Technology, we'll be finding out:

- How to set up an aquarium

In International, we'll be finding out:

- How environmental changes are a threat to the world's coral reefs
- About Earth Day and how we can help our planet
